

Workforce Dimensions

Migration Assessment

Are you interested in migrating to Workforce Dimensions?

Our Workforce Dimensions™ migration offering is carefully designed to help your organisation assess your overall readiness and best prepare for your migration.

The chances are that your organisation's current on-premises or cloud-based Kronos® solution has changed since you first installed it. As a result, it may be difficult to audit, review and validate your solution in an objective way to ensure a smooth, quick migration to Workforce Dimensions. This can also be the perfect time to identify ways to improve your workforce practices, so that bad habits don't carry over into the new solution.

Our services team will outline how Workforce Dimensions will differ from your current Workforce Central® suite solution and illustrate what may be changed, from new functionality that could potentially eliminate existing processes and the need for custom integrations, to how the product roadmap could impact your solution. The review will also identify areas where technical and business process improvements can be made.

Our services team then presents the opportunities for improvement in an executive dashboard summary and a comprehensive report that details these findings, as well as actionable recommendations for migrating to Workforce Dimensions. Part checklist and part roadmap, the report helps you create an environment consisting of technical, business and functional best practices to achieve the most successful migration possible. If you're interested in migrating your Workforce Central solution to the Workforce Dimensions solution, and want to make sure you have a comprehensive review before making the move, we have the answer.

Workforce Dimensions migration tasks

The Workforce Dimensions Migration Assessment evaluates your entire solution to help ensure that your migration plan is as thorough — and as successful — as possible. Our team helps you address the following key areas and more:

Don't go it alone

We want your company to realise the many benefits of Workforce Dimensions, and Kronos Services can help get you there. Using the experience we've gained helping thousands of organisations (like yours) migrate to new platforms as well as to the cloud, we'll partner with you to make sure you have a clear picture about what's involved in migrating to Workforce Dimensions, along with a plan that maps an efficient and effective migration.

Minimise guesswork, maximise results

When it comes to something as significant — and as important — as migrating your workforce management solution, don't take the risk of going it alone. Our services team can help you assess where you stand today and develop a roadmap and recommendations for a migration plan. And we can manage the entire process so your IT staff doesn't have to.

Strategic Roadmap 2-Year Executive Plan

About Workforce Dimensions

At Kronos, we understand that great businesses are powered by great people, and we recognize the strategic advantage that the workforce can bring to your bottom line. That's why we developed Workforce Dimensions — a totally new solution that reimagines what's possible in modern workforce technology. Every dimension — the underlying technology, user experience, functionality, integration, data access, delivery, and support — is designed to help you optimize your most valuable resource: Your people.
